WOMEN SEXUALLY AROUSED AND ATTRACTED TO PEOPLE COMMITTING UGLY CRIMES

FAMOUS CRIMINALS RECEIVING LOVING LETTER

PARIS - NEW YORK, 27.08.2015, 19:20 Time

USPA NEWS - Hybristophilia is the name of the fetishism describing people sexually aroused and attracted to people who have committed cruel crimes such as murder or rape. It occurs more often in women than in men...

The person suffering from hybristophilia derives sexual arousal and pleasure from having a sexual partner who is known to have committed an outrage or crime, such as rape, murder or armed robbery. In some cases, the person who is the focus of the sexual desire is someone who has been imprisoned. In some cases also, the hybristophile may urge and coerce their partner to commit a crime.

They are two kinds of hybristophiles : The passive one and the aggressive one. The passive one represents the admirer sending romantic and sexual fan mails. The groupie has no desire in taking part of criminal activity but is still attracted to the man behind the bars. The woman is usually delusional and will try to find excuses for what the criminal did. She wants to develop relationships with the criminal, believes to be special, to be able to change her lover and have rescue fantasies.

The aggressive hybristophile comprises the woman who actively helps the criminal to commit the crime or crimes. It can be luring victims, hiding bodies, covering crimes or even committing crimes. She is attached to the man because of his violent actions and wants to receive love, yet is unable to understand that her lover is a psychopath who is manipulating her. Both the passive and aggressive hybristophiles tend to end up in abusive or unhealthy relationships.
